MONTHLY REPORTS: INTRODUCTION

Monthly reports contain a wealth of data and for this reason only one example for each direction is included. If you require data for specific months, please contact ....

Each monthly report consists of a series of screenshots captured from the analysis of the SID data. These show by hour and day of the week:

- Vehicle counts*
- Average speeds
- 85%ile speeds
- Speeder counts
- Average speeders

As indicated by the table headings (*only the vehicle counts table is included here)

Additional screenshots show:

- A graph of vehicle speeds over the month
- A bar chart showing vehicle counts versus speed
- A traffic analysis

{85th percentile speed is the speed at or below at which 85% of the vehicles are travelling}

{AADT – Annual Average Daily Traffic}
